DANMAP by DANMAP

in **Significant Impact Group(s)**: AMU reduction strategies

Species targeted: Pigs;Poultry;Dairy;Beef;Sheep;

Age: Young;Adult;

Summary: This comprehensive report (152 pages) is issued by DANMAP, the Danish Integrated Antimicrobial Resistance Monitoring and Research Programme. It presents the results of monitoring the antimicrobial use and antimicrobial resistance in food animals, food and humans in 2017. The report summarizes the result of susceptibility testing of isolates obtained by hospitals, general practice, veterinary practice and the National Food and Veterinary Authority, as well as records of types and amount of antimicrobials prescribed by amongst others veterinarians. Chapters are 'Total antimicrobial consumption in animals' and 'Antimicrobial consumption by animal species'.
