In **Significant Impact Groups:**

Feed / gut health \

Species targeted: Dairy;

Age:

Summary:

Cows find their own pharmacy in a tree hedge. Eating the leaves of the trees, shrubs and herbs gives them extra and varied plant substances, minerals, trace elements and vitamins. It has already been shown that trees, shrubs and herbs have a medicinal value. The leaves are a natural - and beloved - source of protein, minerals, and health-promoting substances, such as tannin.
