Buenas practicas uso de AB de EPRUMA

by EPRUMA

In **Significant Impact Groups:**

\
Species targeted: Pigs;Poultry;Dairy;Beef;Sheep;
Age:

Summary:

The intention of this document is to contribute to the maintenance of antimicrobial effectiveness by providing a descriptive framework of good practice. The implementation of the key aspects of this framework is compatible with its adaptation to the particular conditions of each Member State. In this way a coordinated and integrated approach can be achieved across the EU, but tailored to the specific needs of each Member State. The EPRUMA initiative is intended as a complement to Integrated Agriculture*, with regard to the rational use of agricultural means of production, as set out in the European Framework for Integrated Agriculture (EISA).
