Impact of disinfectant water treatment for pigs, poultry and rabbits on the

by GUICHARD P., LEFORT A.C, BORDAS A., MOREAC T., CHEVANCE A. ,
2019 TEMA Juillet – Août - Septembre 2019 : 31-35

In **Significant Impact Groups:**

Prudent use AB \ Veterinarian Water

Species targeted: Poultry;

Age: Not stated;

Summary:

Impact of disinfectant water treatment for pigs, poultry and rabbits on the stability of antibiotics. This study confirms the impact of disinfectants on the stability of some antibiotics in the water and demonstrates the multifactorial and complex nature of this stability.
