

522 Industry Innovation

New Animal Care

by Health For Animals

In **Significant Impact Groups:**

Other \

Species targeted: Pigs;Poultry;Dairy;Beef;Sheep;

Age: Young;Adult;

Summary:

Scientific advances and emerging technologies, from artificial intelligence to stem cell therapy and new generations of vaccines, have provided greater opportunities to predict, prevent, diagnose and treat animal illness more quickly, accurately and safely. Veterinary researchers and developers continue to break new ground in reducing disease spread and its impact.□

The report 'New Frontiers in Animal Care' by Health for Animals outlines these innovations across several areas: □

New Vaccines ; Alternatives to Antibiotics ; Digital Technologies ; Diagnostics ; Parasite Control ; Nutrition ; Safe Development □

Download 'New Frontiers in Animal Care' to understand these innovations, their benefits to society and potential barriers to market.
