

Disseminating Innovative Solutions to Antibiotic Resistance Management

Farewell from DISARM!

The DISARM project was set to run from January 2019 – December 2021. With a 6-month extension to mitigate the impact of COVID-19 restrictions, this June marks the end of DISARM's funding. We are so proud of the network's achievements and would like to thank everyone involved!

The journey doesn't stop here – keep talking and making use of resources – some key ones highlighted in this newsletter!

Use the DISARM Resources

DISARM has produced many different information materials for a range of people/purposes, all available on our website:

Practical insights in the form of videos, short summary texts and best practice guides – search the website according to species and topic.

E-Learning modules which are ready to use as part of courses concerning farm animal health and antibiotic use.

Policy recommendations about supporting change at farm level, expanding the multi-actor farm health team approach, and achieving the One Health approach in practice.

The Farm Health Team Toolbox to help you set up your own multi-actor team to develop and enact an animal health action plan.

The ArMoR Partnership

Projects [AMRILS](#), [AVANT](#), DISARM, [Healthy Livestock](#), and [ROADMAP](#) have teamed up with the help of the Horizon Results Booster. ArMoR aims to develop a conceptual framework to better understand AMR in livestock systems and support each other in joint dissemination.

Discover our solutions to wear an AMR-proof ArMoR by checking out the project websites!

Continuing the Community of Practice

We are pleased to announce that [ROADMAP](#) have taken on the moderation of DISARM's Facebook-based Community of Practice.

Now under a new name: [Animal Health & Antibiotics Network](#) – this will continue to be a space to share insights and ideas for collaborations.

The group will continue to welcome new members! Don't be shy – start a thread and post a comment!

DISARM's Final Events

On the 16th and 17th May, DISARM hosted their final stakeholder events for industry and policymakers. The events were well attended and there were many stimulating discussions.

Couldn't join us? You can watch both sessions on YouTube.

Thank you!

Thank you for being part of the DISARM project – continue to talk to others, exchange ideas and never stop learning!

DISARM set out to Disseminate Innovative Solutions for Antibiotic Resistance Management, focusing on animal health and prudent use of antibiotics. Let's all continue to champion healthy, sustainable, resilient farming.
